

THE GALAXY.

MIDDLEBURY, VT.

Tuesday, April 21, 1846.

THE FREEMAN AND PAUL DILLINGHAM.

To us nothing can appear more supremely ridiculous than the meanings of the last Green Mountain Freeman over the miserable apologies which Mr. Dillingham makes for betraying the people of Vermont in voting for the admission of Texas. For his submitting to become a supple tool of party in breaking down the tariff, in trampling upon the laws of the country in admitting members of Congress chosen by general ticket, and voting for the odious substructure, this Birney occurrence has no tears to shed. Such petty occurrences are quite aside from the mission of 3d partyism, which has but a single object to accomplish. If the editors of this journal actually believed that Mr. Dillingham would rise above his party, and oppose annexation which they knew was an article in the democratic creed, they betrayed a most profound ignorance of the history of the democratic party for twenty years past. Let them point us to a single instance during this period, when nine tenths of the pseudo democratic party at the north in all questions involving slavery, have not shown themselves the veriest tools of the South, and we might add where the Whig party at the North almost to a man have not opposed the aggressions and usurpations of the slavery. Never were Greels more servile than Locofucos to party discipline. What room then for charity for the motives of these men who in the face of so many facts as are before the country, could prefer as they did Paul Dillingham to a whig who would be compelled to desert his party and their principles to vote for annexation. The course of the agitators of 3d partyism in this State and in the Union from the beginning to the end, has been as rankly hypocritical as it has been heartless, to the cause of human freedom and the good of the country. Thank heaven, the power of the leaders of 3d partyism is fast approaching its final extinction. This "ism" never possessed the capacity of doing good, and its power for doing mischief is fast fading away. Disparaging of ever gaining a supremacy, the leaders will soon feel the field and their deluded followers will find their way back to their former political ranks. We know of nobody who would suffer so much by the collapse of 3d partyism as the editors of the Freeman.

What a change would come over the spirit of their dreams! How unrequited would be their tools of falsehood and misrepresentation, and their malignant columns of Whig editors and the Whig party.

RESOLUTION IN POLAND. Our readers have seen that the Poles have again risen against their old oppressors, the Russians, Austrians & Prussians. Some accounts say that the insurrection is very nearly suppressed. But Quere. A letter from Breslau says that the insurgents had advanced as far as fifteen miles beyond Tarnow. The Austrian troops have been driven from Cracow. There has been established at Cracow a provisional government, which has at its command between 9 and 10,000 armed men, part of them peasants with their scythes. The number of the insurgents increased daily. Nearly all the troops stationed at Breslau and Upper Silesia have been ordered to move to the frontier of Cracow.

This provisional government has issued a soul stirring manifesto to the 20 millions of Poles to rise as one man to vindicate their independence.

Western Trade. It is generally conceded that passengers bring business with them, and that the high fares heretofore exacted by the Western Railroad have driven away Western merchants to New-York city, to the serious injury of Boston. It will be seen by the advertisement, that to-morrow evening, at 7:30 o'clock, the first express train to Albany leaves the Lincoln street depot, taking passengers at the reduced rate of three dollars each. The principal object for building the road was to attract western business to this place, but in the opinion of many the experiment has not yet been fairly tested. This new arrangement cannot but be satisfactory to our merchants and traders.—Boston Courier.

THE ANNUAL CHARTER ELECTION.—The annual juggle, or political farce, usually denominated an election, takes place this day in New York, the metropolis of the Union, and the most democratic city of the whole world, between the rising of the sun over the swamps of Long Island, and the going down of the same sun on the hills of New Jersey. We call this election, this annual movement, this bustling and voting, this opening and closing of polls, a juggle, a farce, a humbug,—in fine, the most preposterous matter that can engage sensible men on the earth under the Lunatic Asylum; and we believe we are right in all these appellations.—[New York Herald of Tuesday.]

MONEY AFFAIRS. The New York Commercial Advertiser of Saturday, in its weekly review of the money market, says:—The money market which was tightening under the influence of the foreign exchanges, and the export to some extent of the precious metals, has become still more stringent under the action of the Banks in consequence of the passage of the Sub-Treasury through the lower House. The managers of these institutions profess to feel no alarm, and sustain the view that no serious effect ought to follow even upon fractional operation, yet they are in fact pursuing a course calculated to bring about advances those evils which we suppose must follow the passage of the bill, and one which, if persisted in, will recoil ultimately upon themselves.

The stock market has been completely overwhelmed by a panic greater than any which was occasioned by the apprehensions of trouble in our foreign relations. The transactions have been large, resulting in a considerable degree from the settlement of

numerous contracts upon time, always following heavy fluctuations in the market. The Express of the same P.M. says:—There is a little better feeling in the street to-day. Strong bills are lower: sales at 109 1/2 a 110. The news from Europe is considered not to be unfavorable. The Grain and Cotton markets were firm, and money was more abundant. This has had a corresponding effect.

[Correspondence of the Atlas.]

BALTIMORE, Saturday, 7 o'clock, P.M. The money market is getting very tight, and stocks decline at almost every board. Good paper is done on the street at one percent a month, and even two is some times submitted to. Baltimore 6's of 1850 are down to 95; and Maryland 6's have touched 75, at which a large amount sold to-day and one sale at 74 1/2, which was the bid when the board rose. A large amount of bank stock has been put on the market, to raise money, it being better to sell than to submit to the discount asked on the street. The apprehension is very great that if the Sub-Treasury bill pass the Senate—of which, looking to the political character of a majority of that body, I have seriously a doubt—we shall have the scenes of 1830 and 1838 over again. Nothing but the very decisive remonstrance of the people can save the country from the ruin which Locofocoism threatens to bring upon it, and that the party when in power, has been to the nations of the people, we may not even hope with any confidence, that they will not hear them now. If the Sub-Treasury bill does pass, we shall have a convulsion, but that the end will be the driving out of the men now in power, requires no prophet to tell.

Correspondence of the Tribune.

PHILADELPHIA, April 6, P.M. The woman, Mrs. Powers, who, with her child were reported as having been found drowned in the River Schuylkill, on Saturday, is safe and sound at Lancaster, as I am informed by a letter addressed to her sister, dated on Friday. She states that having left her home in despair, she walked to the Schuylkill with the intention of destroying herself and child, but the innocent smiles of the latter prevented her. She then went to the railroad, where she was picked up by a burthen train of cars, and carried to Lancaster, where she remains with some relatives.

ANOTHER ELOPEMENT.—We learn from the Greenfield Gazette, that Mrs. Brookway, the wife of a very respectable mechanic at Cabotville, has eloped with a Mormon Elder or priest, by the name of Shurkill, who has been paying early improper attentions to her for some time. These Mormon priests appear to be doing considerable business in the line of running away with married women.

We have accounts from Springfield, of two respectable married women with families, one at Hartford, Mrs. King, and one at Cabotville, Mrs. Brookway, who have been enticed away, and actually eloped with Mormon Saints!

The Montpelier Watchman is pained with the hope that the Rutland is, after all, to be only a New York road, under an impression which has no foundation. A satisfactory connection cannot be made with the Cheshire. The connection will be made, and no other destination is seriously thought of.

A writer in the Woodstock Mercury has devoted two numbers to show the Black River route to Cheshire Bridge to be the best for the Rutland road. He takes the ground that the Central will unite with the Northern road to Concord.

The N. Y. House of Assembly have incorporated the "Hudson River Railroad." Ayes 56 Nays 12.—N. H. Sentinel.

THE "COURIER" says that private advices from Washington, leave no doubt that the Sub-Treasury bill, just as it will pass the Senate with but little delay; and that it will receive the vote of every Locofoco member of that body. The Courier then says:—

"If the passage of the bill as it is, is inevitable, we again call upon the Whigs of the Senate, to make a strenuous effort to have it into effect immediately; because, as we have before said, in that event, its abominations will become so palpable—the impossibility of enforcing its provisions so apparent in all human probability, it will be repealed before the adjournment of the present session of Congress."

"Our advisers further state, that while a Thrill Bill, substantially that of Mr. Walker's, will be reported and pass the House of Representatives, by a majority of from 8 to 12, it will be defeated in the Senate by a close vote."

The Charge. Mr. Seaton, the Mayor of Washington, and some 10 or 12 other gentlemen, have issued a Circular, inviting the transmission of specimens of every kind of manufacture and handicraft, with the prices and market's name, for exhibition at the great National Fair in Washington, on the 20th day of May next. The articles may be sold at the manufacturer's prices. Direct to David A. Hall, Esq. Secretary of the Committee.

FIRE AT GREEN BAY.—We learn from the Green Bay Republican, that a dwelling house in that town, owned by Mr. D. Whitney, and occupied by Mr. Bonafis, was destroyed by fire on the 26th ult. Mr. Whitney's loss is about \$1000, and Mr. Bonafis's \$250.

The Case of the Seadragon.—The trial of Wm. Burdett, the pilot of the Steamboat Swallow, indicted for manslaughter, running that vessel on a rock opposite Athens, on the Hudson River, was brought to a close in New York on Monday last. The Jury, after consulting about an hour, returned a verdict of not guilty. Mr. Burdett was of course discharged from custody. He was defended by H. B. Cowles and Ogden Hoffman, Esq., the latter of whom summed up, so the Courier and Enquirer have reported, the most eloquent and powerful appeals ever listened to by any jury in this community.

The Birth Day of Henry Clay.—The Dinner last evening, at Niles's, in celebration of the Birth day of the illustrious American Statesman, Henry Clay, was numerously attended, and was conducted with an order and decorum rarely witnessed on festive occasions. Hon. Joseph L. White presided, and responded to a toast complimentary to the Twenty Seventh Congress, of which he was a member. Thayer and Mr. Brooks, were called for and responded in appropriate and eloquent speeches. Letters were read from Hon. J. J. Crittenden, J. M. Clayton, and Messrs. Morehead and Mangum. Niles's Saloon was elegantly decorated with banners, and the table was tastefully arranged and abundantly supplied. We judge about six hundred and fifty persons were seated.—N. Y. Tribune.

AVAILANCE AND DEATH.—At East Burke, Vermont, on the night of the 24th ult., a small

house was overwhelmed by an avalanche of earth from a high and very steep bank in its rear, which had become disengaged from the loose condition in which the front left it, as stated by a severe storm. The house was occupied by Mr. Charles Newell and his wife, both aged and decrepit people. Their bodies were taken from the ruins as they lay in their bed, and they were evidently suffocated by the mud and water, which they were found covered.—Boston Sun.

Another Avalanche.—Another avalanche occurred yesterday, in the immediate environs of this city, for which Troy has become famous. Two men were instantly killed, together with a pair of fine horses. It was near the former avalanches, on the opposite side of a small stream, and near a flock of brick looses. Nearly three hundred feet of an abrupt hill, of clay soil, came down with irresistible force, and had it not been for a brief warning, a great number of laborers would have been buried up, who were digging away the hill. The two who were killed ran some distance, but, supposing they were beyond the reach of danger, stopped to look back, and were caught by the terrific avalanche. The owner of the horses saw the earth coming down, attempted to get his team beyond reach, but seeing it impossible, he barely had time to save himself. The avalanche occurred about 2 o'clock, but at dark, although a great number of men had been at work all the afternoon, the bodies had not been recovered. The horses had been reached. One of the men left a family of a wife and six children. Other avalanches are threatening near the old ones, and yet with stupid perseverance, they continue to undermine the hill.

The Bill to prevent Licentiousness so long pending in the New York legislation has at length passed the house by a large majority, all the whigs except three voted for it. It will pass the Senate by a similar vote if not as last year killed by legislative strategy.

FOREIGN.—The expected steamer the Unicorn has arrived. The new free trade tariff is going strong through the commons. The Oregon question has been up in parliament and discussed by Lord Aberdeen, Brougham and Ashburton. Aberdeen the secretary of foreign affairs was quite conciliatory in his remarks. He refused to produce all the papers asked for saying that the public interest would suffer by showing the whole.

ALBANY WHIG! I have just time to say, before the heat starts, that the Whigs of this city have done a glorious day's work. William Parmenter is undoubtedly elected by between 400 and 500 majority, and we have carried six of the ten wards, and probably the fifth Ward, where the Locos run two tickets. This election passed off very peaceable, considering all things.—N. Y. Tribune.

ELECTIONS IN NEW-JERSEY. Newark elected Charles O'Connell on Monday. We learn from the Daily Advertiser, that the Whig ticket for Mayor and other principal officers was elected without any organized opposition. In the North Ward the entire Whig ticket for Aldermen, &c. was elected, but in the East, West and South Wards, owing to the license question, and personal and local feelings, Union or Opposition tickets succeeded. The Mayor elected is Beach Vandewater.

RHODE ISLAND ELECTION. LAW AND ORDER TRIUMPHANT. The election in Rhode Island for Governor, Lieutenant Governor, and members of the Legislature, took place on Wednesday the 1st inst. It has resulted in the complete triumph of the friends of "law and order."

The Providence Journal gives the returns from all the towns in the State except James town, as follows:

Diman	7464
Jackson	7253
Scattering	153
Mr. Diman's plurality over Mr. Jackson is	62.

The plurality of Mr. Harris, the Law and Order candidate for Lieutenant Governor, is 82.

The Journal believes that the Law and Order candidates for Attorney General and Treasurer have been elected. Both branches of the Legislature have large majorities of the Law and Order party; and all the Law and Order candidates not elected by the people, will be chosen by the General Assembly. Providence gave a large vote for the Law and Order candidates.

The Legislature is as follows:—

Senate	19	12
House	43	25
Joint Ballot	62	37

P. S. Connecticut is lost, contrary to our expectations. The allied powers, composed of the opposers of the license law, Barmeyism and Locofocoism, have at last prevailed. In some towns the followers of Birney openly voted with Locos. These men always go loco unless they can win for themselves. They are nearly all temperance men, and pretend to be opposed to slavery, and yet the leaders by voting with the enemy of both temperance and abolitionism, show as clear as the light of heaven, that they care more to gratify their lust of political power than every other earthly object. The final result is, House 107 whigs and 114 Locos; Senate 10 Whigs and 11 Locos. Locos majority on joint ballot, 3.

BRIGHTON MARKET.—MONDAY, April 13, 1846.

Reported for the N. E. Farmer.

At market 345 Beef Cattle, 25 pairs Working Oxen, 20 Cows and Calves, 400 Sheep and 3000 Swine. 200 Beef Cattle and nearly all the swine came over the western rail road, and 200 Beef Cattle are expected by rail road next week. The quality of the Beef Cattle was very superior. We quote to correspond with last week:

ALSO. MANUFACTURERS.—A large stock of which is kept constantly on hand, as also some imported goods.

Wholesale dealers in Tin Plates, Russia, English and Canada Sheet Iron, Iron, Steel and Hot Copper, Sheet Lead and Zinc, Wire, &c. &c.

In conclusion, we would remark that our goods are all purchased with CASH, and we are enabled to sell them upon the most favorable terms.

In buying the large assortment of goods, we obtain our goods of the Agents of the Manufacturers, and hence we are not compelled to pay too high a price for them.

This gives us a decided advantage over those who buy in smaller quantities, as they pay one price, and we pay by buying direct from the manufacturers Agents.

We intend at all times to keep a general and large assortment of goods, and we solicit business from all who may have a desire to purchase goods of the kind we carry on hand.
